**Loscam Moves to Bigger Site after Demand for Services Rise**

Loscam, one of the world’s largest pallet pooling providers, announced its relocation to a larger and more strategically-placed premises in the high-growth south eastern area of Auckland, New Zealand. The relocation positions Loscam to better support its growing customer base in terms of capacity and service response times.

New Zealand Business Manager Nick Trask said the new facility at 12 Chonny Crescent, Manurewa (Wiri) offered a substantially larger pallet repair and storage area and increased vehicle access for faster truck turnarounds.

“As more people are getting to know about Loscam and our reputation is spreading the demand for our pallets is growing rapidly which has meant that we have outgrown our previous Auckland service centre and our new facility is double the size and this will enable us to meet the demand” said Nick.

Any information regarding the new premises can be provided by Peter Hurihanganui on 027 955 5868.

Loscam is a fast growing provider of Returnable Package Handling (RPH) solutions for use in New Zealand, Australian and Asian supply chains. Loscam is focused on delivering high quality, efficient and environmentally sustainable solutions.
