

## FOR IMMEDIATE RELEASE

### **Loscam Appoints Daniel Bunnett as Chief Executive Officer**

Leadership transition marks a new chapter for Loscam's growth across Asia-Pacific

[Hong Kong, 29 December 2025] – Loscam is pleased to announce the appointment of Daniel Bunnett as Chief Executive Officer, effective 22 December 2025. Daniel succeeds Sirin Limpaitoon, who retires after a distinguished tenure as CEO, during which Loscam strengthened its position as a leading provider of pooling solutions across the Asia-Pacific region.

Daniel brings extensive experience in supply chain and logistics, including more than two decades with Loscam. He joined the company in 2000 and was appointed Executive Vice President for Australia & New Zealand in 2012, where his leadership has been central to Loscam's continued growth and operational success. Daniel has demonstrated exceptional strategic acumen, leadership and a deep commitment to Loscam's customers and values.

Derek Wang, Chairman of Loscam and Partner of Trustar Capital, announced "On behalf of the Board, we are excited to welcome Daniel to the role of CEO. Over his years of service, he has consistently delivered exceptional performance to our Australia and New Zealand operation and excelled as a leader. We are equally confident that under Daniel's leadership, the wider Loscam group will continue to build on our strong foundation and advance into an exciting new phase of growth. We also extend our deepest appreciation to Sirin for his exceptional leadership and lasting contributions over the past three decades. His strategic vision and commitment have been instrumental in positioning Loscam as a market leader across the Asia-Pacific region."

"As I step into the role of CEO, it is truly an honour to lead over two thousand team members who make up the Loscam family and to serve in excess of ten thousand loyal Loscam customers across Asia-Pacific," said Daniel Bunnett, Chief Executive Officer of Loscam. "The true value of Loscam lies not in the many millions of assets in our equipment pool, but in our people — their passion, dedication, and drive to deliver for our customers every single day. Together, we will continue to innovate, expand and strengthen our pooling network across the Asia-Pacific, ensuring long-term value for our partners, investors, and teams."

Loscam remains committed to providing innovative pooling solutions that support supply chain efficiency and sustainability across the Asia-Pacific region.

-Ends-
