- Real Time and Historical Tracking
 - Connected through the IoT OG network
 - True end-to-end asset tracking solution

LOSCAM **2**LIVE

Loscam Live is an innovative portal integrated into Loscam Online that facilitates tracking and management of Loscam pooled assets.

Enhancing the customer experience, Track and Trace will provide an opportunity to connect Loscam returnable packaging equipment or Customer owned assets through the IoT 0G network across Australia and New Zealand.

Loscam Live is a new step into the digitalisation of asset Pooling Solutions Service, delivering value by optimising asset tracking.

Fundamental Functions:

Loscam's Track and Trace offers a unique and true end-to-end asset tracking solution that gives you the ability to track your high value assets.

- Real Time and Historical Tracking
- Mitigate and reduce the risk of equipment lossby being able to geographically locate equipment
- Ensure transparent delivery status and conditions of goods
- Ability to easily identify the location of the asset inside or outside your supply chain
- Optimise asset utilisation by identifying bottlenecks in supply chain
- · Improve efficiencies with asset management
- Reduce administrative time
- Ideal for high value assets such as G-Paks, Intermediate Bulk Containers and Foldable Bins

Device Features:

- Geolocation device connected to the IoT network
- Uses Wifi sniffing methodology to determine position
- Small and lightweight
- Offers a low power and long last battery life as a fit for purpose tracking solution
- Connection to Sigfox, the world's leading provider of connectivity for the Internet of Things (IoT)

Platform Features:

- Advanced User Interface for ease of use and enhanced user experience
- Real Time and Historical Tracking of equipment
- Enable alerts on Geofence, Temperature and battery status
- · Shock notification if there is an impact that exceeds the predefined thresholds
- Perform IOU transactions to non Loscam accounts for accountability
